REHABILITATION FOR ALL: EQUALITY AND INCLUSIVITY

DCRM 2023

www.rehabilitationmedicinecongress.nl

WELKOM

The Netherlands Society of Rehabilitation Medicine (NSRM/VRA) organizes the Dutch Congress of Rehabilitation Medicine (DCRM) live in 's-Hertogenbosch, the Netherlands on November 9 and 10 2023 themed; **'Rehabilitation for all: equality and inclusivity'**.

Rehabilitation supports individuals in achieving their full potential by focusing on one's abilities rather than limitations. The impact of race, sex, gender, disability, and socioeconomic status on health and quality of life has been well established. Incorporating principles of equity, diversity, inclusion, and accessibility into clinical practice and research is essential for addressing the unique needs of rehabilitation clients. Given the impact of rehabilitation, it is an essential service that should be available to everyone, particularly those with disabilities who need it. Now, perhaps more than ever, there is a demand for equitable and timely access to rehabilitation.

Participants are offered a wide variety of workshops, poster sessions, mini-symposia and can join a debate session. As usual, leading and inspiring keynote speakers will share their view on the topic. DCRM 2023 provides a platform to emphasize the importance of making rehabilitation more accessible for all.

We cordially invite physicians in physical and rehabilitation medicine, researchers and other health care professionals to submit proposals for workshops, mini-symposia, poster or oral presentations and join us at DCRM 2023 in 's-Hertogenbosch.

We are looking forward to meeting you live at the DCRM 2023 in Congress Center 1931, 's Hertogenbosch!

dr. Nicole Voet

9 & 10 November 2023

Inspiring programme

This Scientific Committee has done its utmost effort to present an inspiring programme to facilitate the discussion for new ideas in research, education and clinical practice of rehabilitation medicine, not only in the Netherlands but also globally. The scientific programme will cover a diverse range of topics. Renowned keynote speakers are invited. The large number of workshops and mini-symposia and free paper sessions during these two days will guarantee a broad variety of interesting scientific topics. During the PhD thesis session the most interesting results of valuable scientific work is presented. A debate session where the pro and cons regarding a central theme within Rehabilitation Medicine will be organized in which delegates are invited to think out aloud and share their views. And last but not least very interesting posters will be presented in the meeting area where participants are invited to discuss the results of the high quality research that has been performed within rehabilitation medicine.

Please, keep a close look on our website for more information.

www.rehabilitationmedicinecongress.nl

Networking breaks

Breaks allow participants enough time for networking and visiting the exhibition. Catering is placed in the exhibition area, to guarantee a good flow of participants to our exhibitors.

Social Event

On Thursday evening, the traditional congress dinner with music entertainment, will give all participants and exhibitors the opportunity to meet colleagues in an informal setting. Sponsors will be informed on the registration procedures.

Accreditation

Accreditation will be applied for physicians in rehabilitation medicine and for physician assistants.

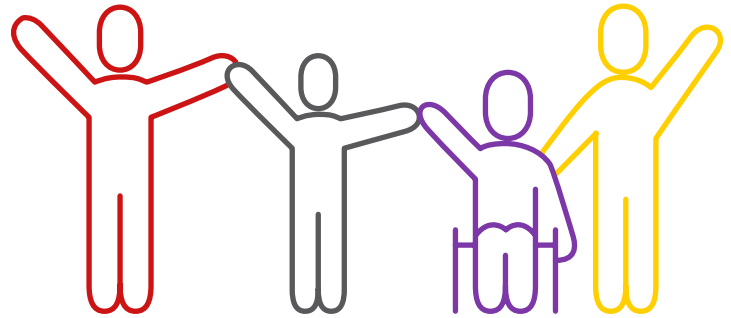

Participants & target audience

We are inviting a wide range of professionals e.g. physicians, psychologists, physiotherapists, human movement scientists and related specialists working in the field of rehabilitation to join us for this highly interactive and interdisciplinary conference. We expect at least 650 participants.

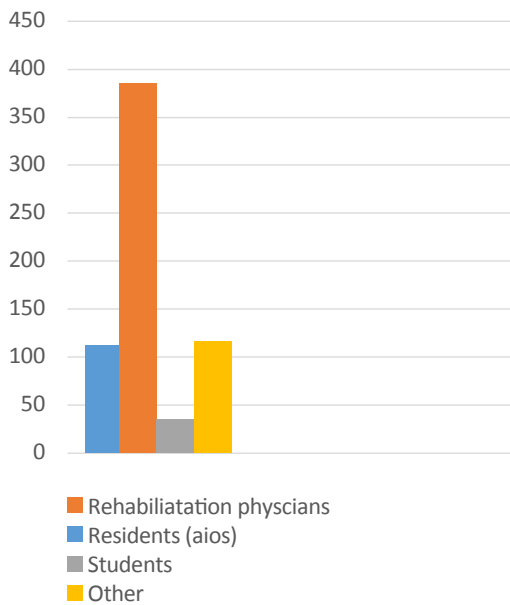

Sponsorship opportunities

We cordially invite you to sponsor our annual congress Live in November 2023. The DCRM 2023 offers great opportunities to expose your activities and/or products to rehabilitation professionals. We have outlined all the sponsorship and exhibition possibilities in this document.
